The background of the page is a detailed black and white photograph of an ornate architectural relief sculpture. The sculpture features intricate carvings of acanthus leaves, scrolls, and classical figures. At the top, a curved band contains the word "FLEET" in capital letters. The overall style is reminiscent of neoclassical or baroque architecture.

*Life - so they say
Is but a game and they let it slip away*

*Love - like the Autumn sun
Should be dying but it's only just begun*

*Like the twilight in the road up ahead
They don't see just where we're goin'*

*And all the secrets in the universe
Whisper in our ears and all the years will come and go
And take us up, always up*

*We may never pass this way again
We may never pass this way again*

*Dreams - so they say
Are for the fools and they let them drift away*

*Peace - like the silent dove
Should be flyin' but it's only just begun*

*Like Columbus in the olden days
We must gather all our courage
Sail our ship out on the open sea*

*Cast away our fears and all the years will come and go
And take us up - always up*

*In appreciation
of his true
friendship and
loyalty
to the faculty,
staff, and
student body of
Millsaps College
over the past
four decades, the
1978 Bobashela
Staff dedicates
this year's annual
to...*

It just won't keep!

Too bad, but you can't put electricity in a jar and keep it!

No, electricity has to be generated and transmitted at the very instant you need it. And as western Mississippi grows and develops, more and more electricity will be needed.

That's why Mississippi Power & Light is constructing Grand Gulf Nuclear Station: to be ready with dependable electric power. All you need...when you need it!
